DETAILED ACTION

Election/Restrictions

1. Applicant's election of Fig. 1, claims 1 and 19, in the reply filed on May 4, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 2-18 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on May 4, 2004.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 1 and 19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant does not disclose in the descriptive portion of the specification and associated drawings, i.e. Figs. 1-5, "receiving means for receiving order data," "first means for

obtaining the number of articles ordered for just before unit interval” and a “displaying means for displaying result” that allows one to ascertain the meaning of Applicant’s claim language. Also, it is noted that from page 12, line 24, of the descriptive portion of Applicant’s specification the phrase “of 4” is not clear. No new matter may be entered.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 6, the phrase “the number of articles ordered” lacks antecedent basis and is not clear.

Claim 1, line 7, the phrase “just before unit interval” is not clear as to its meaning.

Claim 1, line 9, the phrase “the number of stocked articles” lacks antecedent basis and is not clear.

Claim 1, line 11, the phrase “the number of pending articles” lacks antecedent basis and is not clear.

Claim 1, line 13, the phrase “the number of pending articles” lacks antecedent basis and is not clear.

Claim 1, lines 21-22, the phrase “the number” lacks antecedent basis and is not clear.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

8. Claims 1 and 19, as understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Savage, US 6,026,376.

As understood, the electronic cash register 11 and the inventory ordered, e.g. Fig. 2, comprise the term “just before unit interval” and agrees with the “predetermined interval” as recited in the claims.

9. Further pertinent references of interest are noted on the attached PTO-892.
